WHY YOU SHOULD CHOOSE

DITUO SINTERED STONE

Louw Quartz

ADVANTAGES:

DiTuo

Only the best raw materials, extracted locally or imported from Europe and other parts of the world, are chosen to join the productive cycle and be manufactured with avantgarde technologies to become.

RESISTANT TO UV RAYS

BEING THAT THE COLOR IS 100% NATURAL, THERE IS NO FADING DUE TO EXPOSURE TO DIRECT SUNLIGHT

OMNIPOTENT APPLICATION

Breaking the application boundary, Dituo has moved from decorative materials to applied materials, and the design, processing and application are more diverse and extensive to meet high-standard application needs.

FLEXIBLE CUSTOMIZATION

The texture of sintered stone is rich and varied, which can be customized according to the user's needs.

FOOD SAFETY

Can be in direct contact with food. Pure natural selection of materials. 100% recyclable, non-toxic and non-radioactive Human sustainable development, health and environmental protection.

HIGH TEMPERATURE

Direct contact with high-temperature objects will not deform, and the A1-level fire-resistant slate will not produce any physical changes (shrinkage, cracking, discoloration) when encountering an open flame of 2000 ° C, nor will it emit any gas or odor.

ANTI-POLLUTION

One in ten thousand water penetration rate is a new indicator in the world of artificial building materials, Where stains cannot penetrate and at bacterial cannot grow.

SCRATCH RESISTANT

Resistant the scratches due to the hardness of the material.
Mohs up to 5-7

EASY TO CLEAN

It only needs to be wiped with a damp towel to clean up, no special maintenance requirements, and the cleaning is simple and fast.

CORROSION RESISTANCE

Resistant to various chemicals, including solutions, disinfectants, etc.
